Professional Profile

Highly skilled Mechanical Engineer with over 8 years of diverse experience in mechanical maintenance within the **automobile, port, and terminal equipment** sectors. Adept at diagnosing faults, overhauling engines and transmissions, and implementing preventive and predictive maintenance practices. Strong understanding of hydraulic, pneumatic, and electrical systems. Demonstrated ability to boost equipment reliability and ensure compliance with safety and quality standards. Excellent communication and team leadership skills with a proven ability to adapt to new technical challenges.

Key Skills

- Mechanical Maintenance & Troubleshooting
- Hydraulic & Pneumatic Systems
- Engine & Transmission Overhaul (CAT, Cummins, Mercedes, Scania)
- Brake Systems (Disc, Drum, Electro-Hydraulic, Booster)
- Wire Rope & Wheel Hub Maintenance
- Preventive & Predictive Maintenance (PPM)
- Root Cause Analysis (RCA) & SOP Development
- Health, Safety & Environmental Compliance
- Equipment Modification & Process Optimisation
- Technical Schematics Interpretation
- Welding & Fabrication Knowledge

Technical Proficiencies

- **Hydraulic & Pneumatic Systems**: Pumps, cylinders, actuators, schematics interpretation
- **Engine & Transmission**: Overhaul, resealing, diagnostics (Manual/Automatic)
- **Brake Systems**: Calibration and resealing
- **Mechanical Components**: Bearings, seals, wheel hubs
- **Wire Rope Handling**: Inspection, replacement (Conventional, Compacted, Plastic-coated)

Employment History

Senior Mechanical Technician

Abu Dhabi Terminals – Abu Dhabi, UAE
Sep 2019 – Present

- Conducted all maintenance activities for STS (Ship-to-Shore), ASC, Straddle Carriers, and mobile equipment including reach stackers, forklifts, ECHs, boom lifts, and terminal tractors.
- Responsible for overhauling and troubleshooting various engines (CAT C13, Cummins QSB 6.7, Mercedes OM934LA, Scania DC12) and transmissions (Dana 15.5TE27, Allison 3000RDS).
- Performed hydraulic system troubleshooting, resealing, and component replacements.
- Executed major overhauls and alignments on crane and mobile equipment wheel hubs and brake systems.
- Led RCA for breakdowns and prepared SOPs for recurring faults.
- Suggested and implemented design modifications to improve equipment performance.
- Conducted safety inspections and ensured adherence to HSE protocols.

Mechanical Technician

Harshal Electrical Pvt Ltd – Adani Port, Mundra, India
Apr 2016 – Jan 2019

- Performed preventive and corrective maintenance on RMQC (STS), RTGC, and mobile equipment.
- Conducted RCA and implemented long-term solutions for equipment faults.
- Executed complete brake system calibration, hydraulic component repairs, gearbox servicing.
- Managed spreader maintenance (RAM 2910SA, SP2530) including resealing, alignment, and hydraulic troubleshooting.
- Prepared shift reports and coordinated with senior management to maintain crane uptime.
- Replaced sheaves, bearings, and aligned wheels to ensure smooth operations.

Key Projects

- **QC RAM Spreader Overhaul – Adani Port**: Full disassembly and reassembly including crack repairs, actuator resealing, valve and hose replacement.
- **Reach Stacker Service – Abu Dhabi Terminals**: Scania engine and Dana transmission overhaul, hydraulic component repair, telescopic arm alignment.

- **Engine & Transmission Overhauls – Abu Dhabi Terminals**: CAT C13, Cummins QSB 6.7, Mercedes OM934LA engines and Dana/Allison transmissions serviced per manufacturer guidelines.

Education

Bachelor of Mechanical Engineering
Gujarat Technological University, Gujarat, India

Certifications & Training

- Lock-Out / Tag-Out – International HSE Council, Abu Dhabi
- Confined Space Entry – International HSE Council, Abu Dhabi
- Work at Height – International HSE Council, Abu Dhabi
- Maintenance Training (ASC) – Konecranes, Abu Dhabi
- Boom Lift Operator Training – IPAF, Abu Dhabi
- Welding Training – International Centre for Training & Development, Abu Dhabi
