Abu Dhabi

## Objective

Intend to build a career with leading corporate of hi-tech environment with committed & dedicated people, which will help me to explore my self fully and realize my potential. Willing to work as a key player in challenging & creative environment.

## Education

Bachelor degree in mechanical engineering, Gujarat technological university, Gujarat, India.

## Languages

- English
- Hindi
- Gujarati

## Professional Summary

An articulate mechanical engineer with more than 8 years of experience in Automobile , Port Equipments and Mechanical Maintenance.

- Proficient in introducing mechanical modifications and process improvements to optimize operational efficiency of equipments.
- Proficient in mechanical systems, hydraulics, pneumatics, and electrical systems.
- Familiarity with industry standards and regulations (e.g., OSHA, ISO).
- Demonstrated competencies in implementing preventive, planned and predictive maintenance to maximize operational availability of equipment's.
- Capable of conducting root cause analysis to evolve quick breakdown solutions.
- Exceptional communication, collaboration & team building skills with Proficiency at grasping new technical concepts quickly and utilize the same in a productive manner.
- Identifying operation requirements and ensuring that equipment works to its specification, meet standards and achieving operation targets.
- Consummate professional, armed with a clear understanding of Health & Safety Standards and Quality Compliance.

## Skills

**Hydraulic and Pneumatic system**

- familiarity with hydraulic and pneumatic components (such as pumps, valves, cylinders, and actuators) .
- ability to read and interpret schematics and diagrams.
- troubleshooting skills for system faults, and proficiency in maintenance and repair procedures.

**Engine and Transmission**

- Understanding the principles of internal combustion engines and transmissions (automatic, manual).
- proficiency in diagnosing and repairing engine and Transmission issues.
- Ability to disassemble engines and transmissions methodically and reassemble with sealing them correctly, with following manufacturer specifications and guidelines.
- Troubleshooting skills include identifying symptoms, root cause analysis, and implementing effective solutions to resolve problems efficiently.

**Wheel Hubs , Brakes and Bearings**

- Overhauling, Troubleshooting and Resealing types of Wheel hub(Fixed, Drive flange, Utilized, Bolt on, Hub-centric), and Brakes(Disc, Drum, Electro-Hydraulic, Boosters)
- Knowledge of identifying worn or damaged parts such as brake pads, rotors, calipers, bearings, seals, and races, and replacing them with new or refurbished components.
- Conducting tests such as brake performance tests, bearing preload tests, and alignment checks, and making necessary adjustments to ensure optimal performance and safety.

**Wire rope inspection and replacement**

- Proficiency in assessing wire rope(Conventional , Compacted, plastic coated) condition, selecting appropriate replacement, and safely executing the replacement procedure following manufacturer guidelines and safety protocols.

## Professional Experience

**Sr. Mechanical Technician, Abu Dhabi terminals.** 09/2019 - present
Abu Dhabi, UAE

- All type of maintenance for maximum equipment reliability of Ship To Shore, Automatic Stacking Crane, Straddle Carrier and Mobile equipments( Reach stracker, Empty container handler, Fork lift, Terminal tractor, Boom lift).
- Abu Dhabi Terminals has 22 STS(ZPMC) , 106 Automatic Stacking Crane(Konecranes), 75 Straddle Carrier(Terex, Konecranes), Mobile equipments(Konecrane, kalmar,JLG)and Spreaders(Stinis VATCII-SCLTW, Konecrane noell NTS 62X).
- Overhauling and troubleshooting of ENGINE(Cat C13, Cummins QSB 6.7, Mercedes OM934LA.E3A, Scania DC12 58A) and TRANSMISSION(Dana 15.5TE27,Allison 3000RDS).
- Maintaining, repairing, and troubleshooting hydraulic and pneumatic components (such as pumps, hydraulic motors, valves, cylinders, and actuators) to ensure optimal system functionality and reliability.
- Proficiently reseal and replace bearings in cranes and Mobile equipments wheel hub both driven and non driven, ensuring optimal performance and longevity.
- Proficient in expertly repairing, troubleshooting, and maintaining various brake types including disc, thruster, booster, and electro-mechanical, ensuring optimal performance and safety standards are met.
- Highly skilled in conducting meticulous inspections and precise replacement of wire ropes for cranes, guaranteeing optimal performance and safety compliance in demanding operational environments.
- Suggesting modifications and executing them for better performance of cranes.
- Proactively identifying areas of obstruction/breakdowns and take steps to rectify the equipment through application of trouble shooting tools.
- Performing RCA of repeated breakdowns and prepare SOP to reduce it.

**Mechanical technician**, Harshal electrical Pvt ltd, Adani port. 04/2016 - 01/2019
Mundra, INDIA

- Carrying out Preventive maintenance and doing corrective maintenance for maximum equipment reliability of RMQC(STS), RTGC, MOBILE equipments.
- Adani port CT-2, Mundra has 6 STS(ZPMC), 24 RTG(ZPMC), 4 MOBILE EQUIPMENTS(RS & ECH).
- Root cause analysis for repetitive problems and their permanent solutions.
- Preparing reports for shift and doing correspondence with higher authorities for smooth operation of cranes.
- Expert in resealing, repairing, and rectifying faults in hydraulic system components such as pumps, valves, cylinders, and actuators.
- Proficient in gearbox repair and proficient replacement work, ensuring optimal performance.
- Performing brake (thruster, disc, electro-mechanical) calibration, repair, and resealing with precision and adherence to industry standards showcases.
- Executing sheaves and wire rope inspection and replacement in accordance with manufacturer guidelines while adhering to Standard Operating Procedures.
- Expertly conducting sheaves & wheel bearing replacement and precision wheel alignment.
- Suggesting modifications and executing them for better performance of cranes.
- Proactively identifying areas of obstruction/breakdowns and take steps to rectify the equipment through application of trouble shooting tools.
- Performing thorough inspections to enhance the safety measures of equipment.
- Have been part of the Spreader Team as a mechanical engineer for a year, focusing on the maintenance of RAM Spreaders for Quay Cranes (QC) and Rubber-Tired Gantry Cranes (RTGC) i.e. models 2910SA, SP2530.

## Projects

**QC(2910SA) RAM spreader 10 years service,** Adani port, mundra

- Successfully completing the full disassembly and assembly of the RAM spreader for QC(2910SA), including frame crack rectification, resealing of pumps, hydraulic motor, flipper actuator, and valves, as well as replacement of all hoses and pads, along with alignment, demonstrates exceptional proficiency and competence in project management and mechanical engineering within the port equipment industry.

**Reach streaker(Konecrane) service project,** Abu Dhabi terminals, UAE

- Completion of the Reach Stacker (Konecrane) service project, encompassing engine(Scania) and transmission(Dana) overhauling, resealing and repairing hydraulic system components (pumps, valves, cylinders, brakes), replacement of hoses and pads, and alignment of telescopic arms, signifies comprehensive expertise in heavy machinery maintenance and project management within the container handling industry.

**Engines and Transmissions overhauling project,** Abu Dhabi terminals, UAE

- Completing engines(Mercedes OM934LA.E3A, CAT C13, Cummins QSB 6.7) and transmission(Dana 15.5TE27, Allison 3000RDS) overhauling according to manufacturer guidelines showcases adherence to industry standards and ensures optimal performance and longevity of the equipment.

## Training

| | |
|---|---|
| **- Lock-Out / Tag-Out**, International HSE Council | Abu Dhabi, UAE |
| - **Confined Space Entry**, International HSE Council | Abu Dhabi, UAE |
| - **Work at Height**, International HSE Council | Abu Dhabi, UAE |
| - **Maintenance Training for Automatic Stacking Crane**, Konecranes | Abu Dhabi, UAE |
| - **Boom lift operator training**, International powered access federation | Abu Dhabi, UAE |
| - **Welding training**, International centre for training & development | Abu Dhabi, UAE |

## Declaration

I here by declare that the above mentioned information is correct upto my knowledge and belief.

**Bhumitkumar Dadga**
