Career Objective

Dedicated and skilled Mechanical Engineer with over 8 years of experience in the maintenance of heavy industrial equipment, including port and automotive machinery. Seeking to contribute technical knowledge and practical skills in a dynamic Australian organisation committed to safety and innovation.

Key Skills

- Mechanical Maintenance & Repair (Port & Automotive Equipment)
- Hydraulic & Pneumatic Systems
- Engine & Transmission Overhauling
- Root Cause Analysis & Preventive Maintenance
- Safety Compliance (HSE, Lock-out/Tag-out)
- Brake & Bearing Systems
- Wire Rope Inspection & Replacement
- Equipment Alignment & Performance Optimisation

Technical Expertise

Hydraulic & Pneumatic Systems

- Reading and interpreting schematics
- Troubleshooting system faults
- Maintenance and resealing procedures

Engines & Transmissions

- Proficient in overhauling CAT C13, Cummins QSB 6.7, Mercedes OM934LA.E3A, Scania DC12
- Transmission experience with Dana 15.5TE27, Allison 3000RDS
- Skilled in disassembling, repairing, resealing, and reassembling systems to specification

Brake, Bearing & Wheel Hub Systems

- Expertise in troubleshooting and replacing components in fixed, drive flange, and disc/drum setups
- Proficient in performance testing and alignment

Wire Ropes & Sheaves

- Experienced in inspecting and replacing compacted, conventional, and coated ropes per OEM guidelines

Professional Experience

Abu Dhabi Terminals, UAE | Sep 2019 – Present Senior Mechanical Technician

- Maintenance of STS, ASC, Straddle Carriers, and mobile equipment
- Overhaul and diagnostics of engines and transmissions
- Hydraulic and pneumatic component repair
- Brake system and wheel hub maintenance
- Wire rope replacement and safety inspections
- Process improvements and SOP creation to minimise breakdowns

Harshal Electrical Pvt. Ltd., Adani Port, Mundra, India | Apr 2016 – Jan 2019 Mechanical Technician

- Preventive and corrective maintenance of STS, RTGC, and mobile equipment
- Root cause analysis and modification implementation
- Proficient in RAM spreader maintenance
- Detailed safety inspections and documentation

Education

Gujarat Technological University, Gujarat, India Bachelor of Mechanical Engineering

Certifications & Training

- Lock-Out / Tag-Out – International HSE Council, UAE
- Confined Space Entry – International HSE Council, UAE
- Work at Height – International HSE Council, UAE
- Boom Lift Operator – IPAF, UAE
- Welding Training – International Centre for Training & Development, UAE
- ASC Maintenance Training – Konecranes, UAE

Projects & Highlights

- RAM Spreader Full Service (Adani Port): Complete overhaul including hydraulic system reseal and structural repairs
- Reach Stacker Service (Abu Dhabi): Overhaul of Scania engine, Dana transmission, hydraulic component replacement
- Engine & Transmission Projects: Manufacturer-standard overhauls ensuring long-term reliability
