13/01/2023 – CURRENT Abu Dhabi, United Arab Emirates

SUPERVISOR – TECHNICAL, ABU DHABI TERMINALS LLC.

- Act as the Mechanical Supervisor overseeing the technical maintenance team responsible for straddle carriers and other mobile equipment.
- Co-ordinate preventive and corrective maintenance activities to ensure efficient operations.
- Assign work orders to technicians based on maintenance needs and priorities ensuring timely and effective task completion.
- Manage inventory by ordering and issuing required materials and parts ensuring availability to avoid downtime.
- Utilize Maximo software for managing maintenance schedules, tracking work orders, and generating reports for equipment performance and maintenance activities.
- Ensure adherence to safety protocols and compliance with company maintenance standards and procedures.
- Facilitate communication between different departments to streamline maintenance operations and minimize equipment downtime.
- Conduct regular inspections and ensure that maintenance records are accurately documented for future reference and audits.
- Provide technical guidance and training to the maintenance team, ensuring skill development and operational efficiency.
- Monitor and report on maintenance KPI(Key Performance Indicators) to identify areas for improvement and implement corrective measures when needed.

26/09/2019 – 12/01/2023 Abu Dhabi, United Arab Emirates

SENIOR MECHANICAL TECHNICIAN, ABU DHABI TERMINALS LLC.

- All type of maintenance for maximum equipment reliability of Ship To Shore, Automatic Stacking Crane, Straddle Carrier and Mobile equipments (Reach Stacker, Empty container handler, Fork lift, Terminal tractor, Boom lift).
- Abu Dhabi Terminals has 22STS(ZPMC), 106 Automatic Stacking Crane(Konecranes), 75 Straddle Carrier(Terex, Konecranes), Mobile equipments(Konecrane, Kalmar, JLG) and spreaders(Stinis VATCII-SCLTW, Konecrane noel NTS 62X).
- Overhauling and troubleshooting of ENGINE(Cat C13, Cummins QSB 6.7, Mercedes OM934LA.E3A, Scania DC12 58A) and TRANSMISSION(Dana 15.5TE27, Allison 3000RDS).
- Maintaining, repairing and troubleshooting hydraulic and pneumatic components(such as pumps, hydraulic motors, valves, cylinders and actuators) to ensure optimal system functionality and reliability.
- Proficiently reseal and replace bearings in cranes and Mobile equipments wheel hub and gear box both driven and non driven, ensuring optimal performance and longevity.

- Suggesting modifications and executing them for better performance of cranes.
- Proactively identifying areas of obstruction/breakdowns and steps to rectify the equipment through application of trouble shooting tools.
- Performing RCA of repeated breakdowns and prepare SOP to reduce it.
- Highly skilled in conducting meticulous inspections and precise replacement of wire ropes for cranes, guarantying optimal performance and safety compliance in demanding operational environments.

26/04/2016 – 31/01/2019 Mundra, India

MECHANICAL TECHNICIAN, HARSHAL ELECTRICAL PVT LTD

- Carrying out preventive maintenance and doing corrective maintenance for maximum equipment reliability of RMQC(STS), RTGC, Mobile equipments.

- Adani port CT-2, Mundra has 6STS(ZPMC), 24 RTG(ZPMC), 4 MOBILE EQUIPMENTS(RS & ECH).
- Root cause analysis for repetitive problems and their permanent solutions.
- Preparing reports for shift and doing correspondence with higher authorities for smooth operation of cranes.
- Expert in resealing, repairing and rectifying faults in hydraulic system components such as pumps, valves, cylinders and actuators.
- Proficient in gearbox repair and proficient replacement work, ensuring optimal performance.
- Performing brake(thruster, disc, electro-mechanical) calibration, repair and resealing with precision and adherence to industry standards showcases.
- Executing sheaves and wire rope inspection and replacement in accordance with manufacturer guidelines while adhering to standard procedures.
- Expertly conducting sheaves & wheel bearing replacement and precision wheel alignment.
- Suggesting modifications and executing them for better performance of cranes.
- Proactively identifying areas of obstruction/breakdowns and take steps to rectify the equipment through application of troubleshooting tools.
- Performing through inspections to enhance the safety measures of equipment.
- Have been part of Spreader Team as a mechanical engineer for a year, focusing on the maintenance of RAM Spreaders for Quay Cranes(QC) and Rubber-Tired Gantry Cranes(RTGC) i.e. models 2910SA, SP2530.

EDUCATION AND TRAINING

24/07/2011 – 15/08/2015 Ahmedabad, India

MECHANICAL ENGINEERING Gujarat Technical University
